24 JUN 1987

MEMORANDUM FOR: Executive Assistant to the DDA

FROM:

Director of Logistics

SUBJECT: Request for 40th Anniversary Celebration  
Exhibit Ideas

1. The following is the Office of Logistics response to your recent request for exhibit ideas for the Agency's 40th anniversary celebration.

2. A pictorial history of the Agency's occupancy could be assembled as an exhibit, using photographs of the buildings the Agency has used since its inception. Whether or not sensitive locations would be included would depend upon the makeup of the intended audience. Good sources for photographs of the buildings would be the Historical Intelligence Collection Staff, the History Staff, and the Printing and Photography Division, the Real Estate and Construction Division, and the Facilities Management Division of the Office of Logistics. However, a notice from the anniversary planning group to all Agency employees calling for photos might surface the best photos.

3. A second idea would be to display pieces of equipment used in the early days for Agency support. The Office of Logistics and other components could contribute some items that would be interesting, such as early printing equipment, computer equipment, typewriters, etc.

4. Another idea would be to have a display on how the CIA and its predecessor organizations contributed to the formation of U.S. policy decisions. Good sources of information are the Historical Intelligence Collection Staff, our retired personnel, and the multi-volume Royal British publication on the founding of OSS, CIG, and CIA. Additionally, [redacted] has information on early OSS days and NPIC has information on World War II subjects.
